## S'MORE POND HAS A NEW LINER AND HAS BEEN MOVED

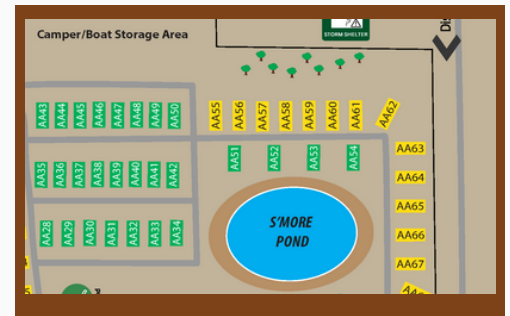

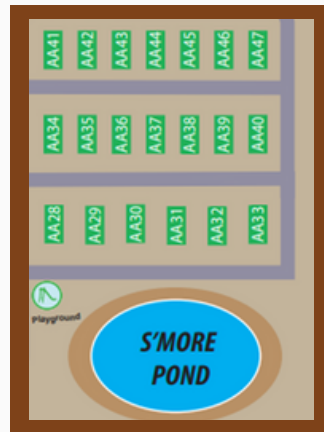

\*\*An additional site has been added to the end of each AA Daily Campsite Row. In an effort to keep the Site Map more cohesive some sites will be getting **renumbered**. Placement of physical sites has not changed only the number is being updated. Meaning if you were three sites in from the beginning of the row West to East you're still three sites in. Please see the Grid & Maps for New/Renumbered sites.

### New Daily Site's listed on New Map Only

AA34, AA42, AA50, AA51, AA52, AA53, & AA54

\*\*We're currently **NOT** taking reservations for 2023 on these sites. This is due to weather, ground condition, & grass growing factors. While we hope they're ready by June, we want to be conscious of uncontrollable environmental factors. We will have a better idea of completion date by the end of April. Reservations for 2024 will be available starting Monday, April 3rd, 2023.

*!Thank You!*

We want to take a moment to say thank you for the positive feedback we've received over the new site additions. This is an exciting addition to help better accommodate campers.
